

Vogezen Classic 2004

Rally

On the 22-25 April Rob Veelenturf (driver) and Remko van Ekelen (Navigator) took part in the Vogezen Classic 2004.

The event started during the morning of the 22th in Trier (Germany) with the possibility to socialize with possible prospects and participants during the technical reviews of the rally as well as the lunch. Since most of the participants were already in the hotel the evening before, we were able to socialize with them already then

Since the Vogezen Classic was an event where we had to keep our good name up we drove as real rally stars and finished 3rd in the Rally class over all.
